

Alfonso Barreiro

Senior Product Designer

(505) 362-6700 · alfonso@barreiro.com · [LinkedIn](#) · Portfolio: barreiro.com · Portland, OR 97232

SUMMARY

Product designer with fifteen years across brand, product, marketing, and operations, the last two focused on the craft full-time. I research, decide, design, and build: AI-assisted synthesis at scale, design systems with tokens and components, and production front ends in React, Next.js, and Squarespace with custom code. I set the accessibility and conversion standards 100+ client sites shipped to, ran a DTC business end to end, and have four live case studies at barreiro.com, including a working product prototype and a team build for AIGA Portland. I want to go deep as an individual contributor on a team worth growing with.

CORE SKILLS

UX Research: User interviews, competitive analysis, heuristic evaluation, Jobs-to-be-Done, journey mapping, usability testing

Product & Interaction Design: End-to-end product design, wireframing, prototyping, user flows, information architecture, mobile-first design, interaction patterns and states

Visual Design & Systems: Design systems, design tokens, component libraries, typography, layout and hierarchy, responsive UI, accessibility (WCAG 2.1), brand identity

AI + Design: AI-assisted research synthesis, AI-assisted design-to-code (Claude Code), GenAI interaction patterns, conversational UI

Tools: Figma (components, auto layout, variants, libraries), Claude AI, Adobe Creative Suite, React, Next.js, Squarespace + custom CSS/JS, Vercel, GitHub, HTML5/CSS3

Analytics & Collaboration: Google Analytics, SEMrush, A/B testing, data-informed iteration · design critique, developer handoff and production-ready specs, stakeholder communication, agile workflows

EXPERIENCE

Product Design Consultant

December 2024 – Present · Portland, OR

Independent Practice

- Deliver end-to-end product design for clients and self-directed products: research, information architecture, interaction design, design systems, and production front ends. Four live case studies at barreiro.com.
- Men's Sole Revival: pivoted a men's health venture from e-commerce to content authority after margin modeling and audience research showed buyers needed information before products. Live since April 2026; 86% of visitors complete the self-assessment.
- Spotify concept: designed three reversible controls for the Recently Played shelf, grounded in 200+ synthesized public user posts, and shipped an interactive demo running on real constraints.
- AIGA Portland Design Month 2026: shipped the festival's landing page with a four-person volunteer team, building the artist's brand system on Squarespace 7.1 with custom CSS/JS, editable by non-designers after handoff.
- Wayfarer: travel-discovery platform with an interactive globe and a duration-first trip planner; component states designed for empty, loading, error, and success.
- Design in Figma, build in React and Next.js with AI-assisted coding, deploy on Vercel. barreiro.com was designed and shipped this way.

Director of Marketing & DTC Operations

March 2022 – November 2024

VARA Winery & Distillery · Albuquerque, NM

- Redesigned the website and e-commerce platform end to end: discovery, product detail, and checkout. Wine Club membership held steady through an industry-wide downturn.
- Ran UX and brand identity for a new spirits line, concept through launch: packaging, digital presence, and landing pages.

- Cut production timelines 20% by introducing AI-assisted design workflows across the creative team, with quality consistent across channels.
- Owned the end-to-end DTC experience: site architecture, navigation, product pages, email design, and campaign creative.

UX & Design Lead (VP of Operations)

March 2018 – December 2021

Boomtime · Albuquerque, NM · Joined as Lead Graphic Design, promoted to VP in 2019

- Hands-on UX and design lead on the biggest, messiest client projects: research, IA, wireframing, and visual design across platforms.
- Set the UX, accessibility (WCAG 2.1), and conversion standards every project was built to.
- Tied UX changes to real numbers, client retention and revenue, using Google Analytics and SEMrush.
- Led a design and web development team alongside four marketing consulting teams, shipping 100+ client sites in healthcare, legal, hospitality, and e-commerce.

Web Designer & Developer

March 2011 – January 2018

CliffDweller Digital · Albuquerque, NM

- Designed and developed 50+ responsive websites with user-centered design and brand consistency on every project.
- Matched site architecture and content hierarchy to what users actually searched for with SEO and content teams. User engagement up 20% on key client sites.
- Ran user tests on priority projects and iterated designs on real behavior, not assumptions.

Founder & Lead Creative

2010 – 2011

Sola Fide Design · Albuquerque, NM

- Started a design consultancy focused on brand identity, web design, and campaign creative for e-commerce and small-business clients.

EDUCATION & CERTIFICATIONS

UX Academy Foundations · DesignLab · Completed June 2025 — end-to-end UX process: research, synthesis, IA, wireframing, prototyping, and usability testing.

Associate of Arts, Religion Studies · University of Florida
